

iGUIDE®

Map. Measure. Explore.

Map and Document As-built Environments

Create visual and dimensional information for planning, designing and evaluating spaces.

Floor Plans

Interactive as-built floor plans allow you to quickly navigate to the spaces you want to see

Property Details

Provides room measurements, dimensions and total square footage (m2) for space planning purposes

3D Immersive Tour

Virtually walk-through a real world space to view conditions and easily locate critical assets

Measurement Tool

Take custom measurements anytime and anywhere

Photos

Option to include still photo for additional documentation

Why use the iGUIDE?

SAVE TIME & REDUCE COSTS

- Reduces costly onsite visits with unlimited remote viewing
- Fast and efficient capture process

CONVENIENT 24/7 ACCESS

- View a property from any browser or device, at any time

EFFICIENTLY COMMUNICATE

- Identify needs and problem areas
- Estimate and share job scope and conditions with stakeholders
- Easily collaborate with vendors or project teams

VISUAL DOCUMENTATION

- Permanent visual record for reference of real world space
- Document progress and property conditions during construction

COMPLETE CONTROL

- Downloadable assets allow for secure self-hosting options

MULTI-PURPOSE VIEWS

- Customize views of the iGUIDE. Hide rooms, floors and/or panoramas as desired and create views for each unique purpose or user.

Who Finds it Useful?
